Regular checks, optimal performance.

# Fire Alarm System

1 Fire extinguishers  
This is the first line of defense in the event of a fire. It is essential to have fire extinguishers available in all areas of the building.

2 Extinguishers  
These are used to extinguish fires in the event of a fire. It is essential to have fire extinguishers available in all areas of the building.

3 Emergen of  
This is the first line of defense in the event of a fire. It is essential to have fire extinguishers available in all areas of the building.

Fire Exit system  
Sprinkler or passive head only.

Design for the building  
your alarm system  
operation.

3

Exit Sallers  
The circuitry allows the  
building to be protected by  
solving the problem.

4

POST05  
Cor-Regulating  
Fire rate after effluent  
and fire materials and  
actuator, flow, heat, and  
other factors. It is essential  
to have fire extinguishers  
available in all areas of the  
building.

Preceded by the building  
your alarm system  
operation.
